

## Easter Eggs - Logic Grid

Four children aged 7 through 10 got their Easter egg with a toy in it. Which kid got a puzzle?

1. A girl got the blue egg and a boy is 8 years old.
2. Matthew is 1 year older than the kid who got a silver egg, but 1 year younger than Linda.
3. A girl received a dinosaur, which wasn't in the golden egg.
4. The oldest boy got a red egg, and the youngest boy got a puzzle.
5. The puzzle wasn't in the golden egg. The 9 years old didn't get a bouncing ball.
6. If Linda is 9, then she got a dinosaur.
7. Jason and the kid with the bouncing ball have 1 year of difference.
8. If the 7 years old got the blue egg, then it held a puzzle.
